Made In Turkey

About Neogen

Neogen is a non-porous, hygienic and low-maintenance material for all surfaces. It can easily achieve all color and pattern appearances of granite, marble, natural stone and similar products.

It can be bonded invisibly by a trained specialist.

Thanks to neogen's ability to be shaped by heat; It helps you to realize your designs easily.

Hygienic & Flexible

In a residential area, can be used as solid surface kitchen bench, bathroom vanity tops shower and tub surrounds. It can be usedn in many decorative works in publci spaces, resturants, hospitals, office spaces, caravans and boats.
